5 **Draft normal resolution**

6
7 **Rule of law in international relations (was Putins' security analysis)**

8
9 **Tabled by** De Groenen (the Netherlands) amended by Les Verts, Green Russia, GroenLinks, Die
10 Grünen and the EGP Committee

11
12 The Greens see article 2 of the Charter of the United Nations, which states that all members shall settle
13 their international disputes by peaceful means and shall refrain in their international relations from the
14 threat or use of force against the territorial integrity or political independence of any state, as a corner
15 stone of international public order. The United States violate this principle with their threat of violence
16 against particularly Iran, Syria and North-Korea. With their threat the United States incite fear within
17 those nations and this fear is a major cause for nuclear proliferation.

18
19 The European Greens condemn the aggression of the United States and call on all European
20 governments to refrain from military or political support for any military action which misses an
21 explicit mandate from the Security Council.

22
23 *Clarification: this is a straightforward effectuation of one of our principles as stated in the Charter of*
24 *the EGP.*
